Inside each **WEBER** Barbecue there are two grills, one for charcoal, one for food. Cover and dampers regulate heat and smoke, prevent flare-ups. Close dampers and coals are snuffed out — use charcoal up to five times. **WEBER** is designed for easy handling . . . even while in use.

THE **WEBER** PRINCIPLE

Here's the ultimate in gracious outdoor living, a charcoal grill that practically cooks by itself! Using indirect or direct, reflected heat, **WEBER** combines the economy of an oven with the zest

of a barbecue. Put the **MAGIC COVER** in place — foods cook in their own juices — stay tender and flavorful, even when "well done." By controlling smoke and flame **WEBER** grills bring out the matchless flavor of the finest cuts. **EVEN** less expensive meats are transformed into masterpieces of gourmet delight.

Truly, **WEBER** is the modern way to cook with charcoal
