THE ORIGINAL OUTDOOR  
COVERED COOKER

# weber®

—RECOGNIZED ORIGINATOR AND LEADER OF COVERED BARBECUE COOKING  
A GENERATION OF TRUE BARBECUERS HAVE ESTABLISHED  
THE WEBER TRADITION

## Why Foods Cook Better . . . IN A WEBER

WEBER kettles cook with reflected heat to combine the economy of an oven with the zest of a barbecue.

With the exclusive WEBER cover in place, foods cook in their own juices—stay flavorful juicy and tender even when “well done.”

A unique damper system controls heat to suit you—brings out the matchless flavor of the finest cuts . . . even less expensive meats are transformed into gourmet delights.

## WEBER PRINCIPLE

Uses two grills, the upper for foods, the lower for charcoal. Air circulates all through the charcoal to distribute heat evenly and seal in flavor and juices.

## WEBER ECONOMY

1. **QUALITY** — WEBER kettles are built to outlast ordinary barbecues. Heavy duty steel—Porcelainized Inside & Out.
2. **BEAUTY** — Exciting and pleasing permanent colors.
3. **ECONOMY** — Saves charcoal. Uses fewer briquettes to begin with. When finished cooking close all dampers and coals go out almost instantly and may be used again.
4. **PERFORMANCE** — Dampers regulate heat, cover eliminates flame scorching of meat and provides even distribution of heat.
5. **CONVENIENCE** — Entire meal may be prepared on the WEBER. Requires no more attention than your kitchen oven. Easy to assemble.

## DIRECT COOKING

Meats such as steaks, chops, hamburgers, flat food, etc. are cooked by direct heat and therefor are placed on the grill directly over the hot charcoals.

## INDIRECT COOKING

Whole meats such as hams, fowl, roasts, etc. are cooked by indirect method. This process provides that the briquettes be placed on the sides of the charcoal grill and separated by an aluminum foil drip pan.
